Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

Claims 1-20 (cancelled).

Claim 21 (new). A thermoplastic molding composition comprising

- A) at least one member selected from the group consisting of polycarbonate, polyestercarbonate, polyamide, polyalkylene terephthalate and polyoxymethylene,
- B) a co-precipitated mixture containing
 B.1 at least one emulsion polymerized graft polymer and
 B.2 at least one vinyl(co)polymer B.2 and
- C) at least one rubber-free thermoplastic vinyl (co)polymer product of solution-, mass- or suspension polymerisation.

Claim 22 (new). The composition of Claim 21 wherein said A) is present in an amount of 10 to 99 parts by weight, B) is present in an amount of 0.5 to 90 parts by weight and C) is present in an amount of 1 to 50 parts by weight.

Claim 23 (new). The composition of Claim 22 further containing D) 0 to 20 parts by weight of at least one flame retardant, and E) 0 to 5 parts by weight of a fluorinated polyolefin.

PO8521 - 3 -

Claim 24 (new). The composition of Claim 21, wherein said graft polymer is a product of emulsion polymerisation of

- i) 5 to 95 wt.% of at least one vinyl monomer on
- ii) 95 to 5 wt.% of one or more grafting bases having glass transition temperatures <10°C

and where said B.2 is a product of emulsion polymerisation of at least one vinyl monomer.

Claim 25 (new). The composition according to Claim 24, wherein said i) is a mixture of

- i1) 50 to 99 parts by weight of at least one member selected from the group consisting of vinyl aromatics, nucleus-substituted vinyl aromatics and (meth)acrylic acid-(C₁-C₈)-alkyl esters and
- 1 to 50 parts by weight of at least one member selected from the group consisting of vinyl cyanides, (meth)acrylic acid-(C₁-C₈)-alkyl esters and derivatives of unsaturated carboxylic acids.

Claim 26 (new). The composition according to Claim 25, wherein said i1) is a member selected from the group consisting of styrene, α-methyl styrene and methyl methacrylate and where i2) is a member selected from the group consisting of acrylonitrile, maleic acid anhydride and methyl methacrylate.

Claim 27 (new). The composition according to Claim 26, wherein monomer i1) is styrene and i2) is acrylonitrile.

Claim 28 (new). The composition according to Claim 24 wherein the grafting base is at least one member selected from the group consisting of diene rubber, EP(D)M rubber, acrylate-, polyurethane-, silicone-, chloroprene-, and ethylene/vinyl acetate rubber.

Claim 29 (new). The composition of Claim 24 wherein the grafting base is a diene rubber.

Claim 30 (new). The composition according to Claim 21 wherein the graft polymer B.1 and vinyl (co)polymer B.2 relate one to the other by weight as 90:10 to 25:75.

Claim 31 (new). The composition according to Claim 21, wherein the graft polymer B.1 and vinyl (co)polymer B.2 relate one to the other by weight as 85:15 to 50:50.

Claim 32 (new). The composition according to Claim 21, wherein the vinyl (co)polymer C) is a product of

- i1) 50 to 99 parts by weight of at least one monomer selected from the group consisting of vinyl aromatics, nucleus-substituted vinyl aromatics, (meth)acrylic acid-(C₁-C₈)-alkyl esters and
- 1 to 50 parts by weight of at least one monomer selected from the group consisting of vinyl cyanides (meth)acrylic acid-(C₁-C₈)-alkyl esters, derivatives of unsaturated carboxylic acids.

Claim 33 (new). The composition according to Claim 21 wherein B) and C) relate one to the other by weight as 80:20 to 30:70.

Claim 34 (new). The composition according to Claim 24 wherein the content of grafting base is 75 to 40 wt.% in relation to the graft polymer.

PO8521 - 5 -

Claim 35 (new). The composition according to Claim 23 wherein the flame retardant conforms to formula (IV)

in which

 R^1 , R^2 , R^3 and R^4 , independently denote C_1 to C_8 -alkyl, C_5 to C_6 -cycloalkyl, C_6 to C_{20} -aryl or C_7 to C_{12} -aralkyl,

- n independently of each other mean 0 or 1,
- q means 0 to 30 and
- X means a mono- or polynuclear aromatic group containing 6 to 30 C atoms or a linear or branched aliphatic group containing 2 to 30 C atoms, which are OH-substituted and may contain up to 8 ether bonds.

Claim 36 (new). The composition of Claim 35 wherein said R¹, R², R³ and R⁴, independently are halogen and/or alkyl substituted.

Claim 37 (new). The composition according to Claim 35, wherein q is 0 to 10,

X represents a member selected from the group consisting of

and n is 1.

Claim 38 (new). The composition of Claim 21 wherein both B.2 and C contain acrylonitrile and the acrylonitrile contents of B.2 and C differ by 1 to 15 wt.%.

Claim 39 (new). The composition according to Claim 21, wherein said A is selected from the group consisting of polycarbonate and polyamide.

Claim 40 (new). The composition according to Claim 21 further containing at least one member selected from the group consisting of mold lubricant, and mold release agent, nucleation agent, antistatic, stabilizer, filler, reinforcing agent, dye and pigment.

Claim 41 (new). A molded article comprising the composition of Claim 21.
